

## Southland Automation Inc. StPicture Family Photo Storage System Benefits

---

The StPicture Family Photo Storage System provides the following benefits:

- **Peace of Mind** - knowing that your valuable pictures are duplicated on multiple CDs spread among family and friends (and no longer vulnerable to a single fire) can give a sense of peace.
- **Greater Interest** - the wider availability of your pictures (once on CDs) and the organization and storyline (rather than just a pile of pictures) generates greater family interest in your pictures.
- **Greater Versatility** - your pictures are more useful stored in the StPicture Family Photo Storage System. Copies can be printed at any time, they can be attached to emails, they can be included in word processing documents, they can be used by card printing programs, they can be used by Photo Editor programs, etc.
- **Easier Viewing** - the displayed pictures are usually much larger and brighter than the paper based originals. This trait is greatly appreciated by older folks with less than perfect vision.
- **More Pictures** - once a CD is created and distributed, recipients tend to want their pictures included in the 'next' CD. The use of the StPicture system encourages the use of digital cameras which tends to increase the number of pictures snapped.
